

## **Who are Customer's Authorized Agents?**

Customer's Authorized Agents are providers of energy management solutions who complete energy efficient upgrades for SCE customers and submit Express and Customized Solutions Incentives Applications on their behalf. When you become a Customer's Authorized Agent with SCE, your customers can choose to have incentives issued directly to you, which allows you to reduce the project's upfront costs.

## **Why Become a Customer's Authorized Agent?**

The advantages of completing energy efficiency upgrades as a Customer's Authorized Agent run both ways. Your customer realizes the cost savings of the incentive immediately, without waiting for the Incentives Application to be processed. As a Customer's Authorized Agent, you'll gain a valuable business advantage over competitors who are not Customer's Authorized Agents by being able to lower a project's upfront costs.

This makes it easier and more cost-efficient for customers to achieve energy savings, which can help encourage customer commitment to upgrade projects. You'll also receive exclusive Technical Support service to guide you through the pre-application submittal process.

If you wish, your name and company information can also be added to the Customer's Authorized Agents Directory, an exclusive resource SCE customers use to find qualified providers of energy management solutions. Simply download the participation form and email, mail, or fax it back to the appropriate contact information on the form. Your information will be added to the directory within 2 weeks.
