SOUTHERN CALIFORNIA EDISON COMPANY (SCE)

NOTICE OF SCE'S REQUEST TO INCREASE YOUR RATES FOR CHARGE READY AND MARKET EDUCATION PROGRAMS

APPLICATION (A.) 14-10-014

On October 30, 2014, Southern California Edison Company (SCE) submitted an application to the California Public Utilities Commission (CPUC) for approval of its proposed Charge Ready and Market Education Programs. If approved, SCE will recover the program costs through electric rates. SCE's estimate of the proposal's total cost is **\$355 million** (over a five year period from 2015 through 2019), which will result in an **0.2% system wide average rate increase relative to August 2014 rates.**

Charge Ready and Market Education Program Proposal

In this application, SCE is proposing to implement a two-phase Charge Ready program and an electric vehicle (EV) Market Education campaign. Phase 1 would cost \$22 million and would be a one-year pilot to deploy up to 1,500 charging stations. Phase 1 will also include an introductory market education program. Phase 2 would cost \$333 million and would include deployment of additional charging stations to bring the total up to 30,000 over five years. Additionally, Phase 2 will expand the market education and outreach campaign.

Through this proposed program, SCE will encourage business customers to add charging stations to their property by providing the supporting electric infrastructure needed. SCE will offer customers a rebate for purchasing the charging stations. SCE will own and maintain the supporting electrical infrastructure. Customers will choose, own, operate, and maintain the charging stations. SCE's proposed Charge Ready program aims to support the deployment of charging installations efficiently by factoring in the location, design and construction costs to maintain reasonable fees.

SCE's proposed Charge Ready program is integral to developing the charging infrastructure required to increase EV usage to help meet California's greenhouse gas (GHG), climate, air

quality and petroleum reduction goals and objectives by 2020. The Charge Ready program will expand the EV charging infrastructure, which will improve customer awareness.

To fully implement SCE’s proposed Charge Ready and Market Education programs, SCE is requesting that the CPUC authorize a \$355 million revenue increase to be collected from customers in future electric rates.

The following table compares SCE’s August 2014 average rates by customer group, to an estimate of proposed average rates if SCE’s proposal is approved by the CPUC**:

Customer Group Revenue Impact
SCE’s Charge Ready and Market Education Programs Application

Customer Group	Average Rates August 2014 ¢/kWh	Proposed Rates ¢/kWh	Proposed Change %
Residential	17.6	17.7	0.3%
Lighting - Small and Medium Power	18.3	18.4	0.2%
Large Power	13.0	13.1	0.1%
Agricultural and Pumping	14.7	14.8	0.2%
Street and Area Lighting	18.8	18.8	0.0%
Standby	11.0	11.0	0.1%
TOTAL	16.7	16.7	0.2%

** The actual changes in rates will be determined by the Commission.

CPUC PROCESS

The CPUC will evaluate and determine SCE's Charge Ready and Market Education Programs proposal through its administrative law process where the proceeding is assigned to an Administrative Law Judge (Judge) who will direct the method in which the record, upon which the Commission bases its decisions, is made. The Judge may hold evidentiary hearings where parties to the proceeding provide testimony and other parties may cross-examine them. These hearings are open to the public but only those who are parties to the proceeding may present evidence, testimony, and be subject to cross-examination. The hearings and documents submitted during the proceeding become part of the formal record that the Judge relies upon in writing a proposed decision to present to the Commissioners for their consideration.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision which may adopt SCE's proposal, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) reviewed this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics,

finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

STAY INFORMED
